I am working on a formal response to your letter. In the meantime, be advised that the CPG plans to measure active layer thickness in the areas of Panels 37, 38 and 39 tomorrow morning (Friday) at 9 AM. Ben Hammond from CDM has been informed.

Stan,

Please see attached letter regarding daily schedule updates and notification of sampling activities.

This is the letter I mentioned I would be sending over today on our earlier status call.

Please let me know if you would like to discuss further.

Thanks in advance,

Jennifer LaPoma
